

Quality Analysis

- **Assurance of plant performance**
 - Automatic quality control
 - Standardised sampling process and analysis process
- **Increasing plant efficiency**
- **Trouble-free integration into existing plants**
- **Process steps:**
 - Taking samples
 - Drying – DRYON
 - Classification – screen conveyor chute using BIVITEC system
 - Metal detection
 - Sorting and material analysis – CLARITY
 - Weighing material
 - Archiving and evaluation – SortVisu

- Processing Technology
- Environmental Technology
- Bagging Technology
